SUBMIT PLAT OF SURVEY WITH APPLICATION

RESIDENTIAL REQUIREMENTS:

The maximum fence height in a residential use district shall not exceed 6 feet between buildings, and shall not exceed 6 feet in height in the rear yard behind the building, and shall not exceed 3 feet in the front yard setback. All height dimensions shall be measured from the established grade to the topmost section of the fence. A gate or opening shall be provided in all fence enclosures. Any suitable construction material may be used for a fence except: chicken wire, square welded mesh wire, barbed wire, electrically charged wire, temporary snow fence, or solid cinder block, or to be topped with sharp-edged material except that this shall not be construed to prohibit picket fence. All fences in the front-yard setback shall be of chain-link or other "clear-vision" material. The entire length of the fence shall be constructed of the same or harmonious material. All privacy fences shall be erected with the finished side facing out.

APPROVED

Building Commissioner
